MIGHTY SHRINK

PREDICTABLE SHRINK AND SEAL

Specialised extrusion and material selection allow our Mighty Shrink to in a controlled manner in both length and width. Making it easy to work with for predictable results.

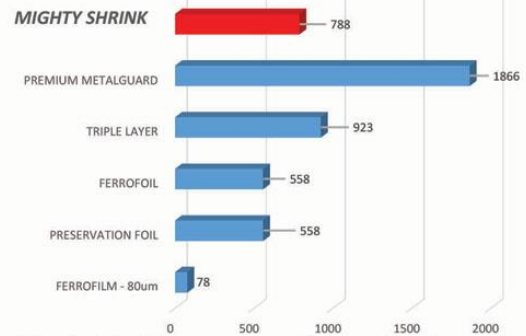

BARRIER PROPERTIES

MVTR is the Moisture Vapour Transfer Rate of the product. All films allow a small amount of moisture to pass through. The lower the value the better the performance of the material

PUNCTURE RESISTANCE

The dart test is a measure of strength. The resistance of the film against the combined weight and speed of a falling dart is depicted here. The higher the number the greater the strength.
